

SUSPENSION

サスペンション

NEX Coilover Systems are designed to give you that special edge on the track. Our Performance Development Team in North America tests our suspensions to its limit at race tracks all over Canada and the USA. All NEX Coilover Systems are twin tube designed and constructed from the highest quality material. Nitrogen gas is inserted into the shock body to eliminate fluid foaming during heavy applications. The entire shock body is then tested through 5 million random oscillations over a period of 3 weeks to ensure quality before it leaves the manufacture. The upper and lower mounts are forged to shape from NASCAR grade 6061 aluminum and the coil springs are made from high quality SAE 9254 steel. At NEX, we strive to be the industry leader in twin tube coilover systems.

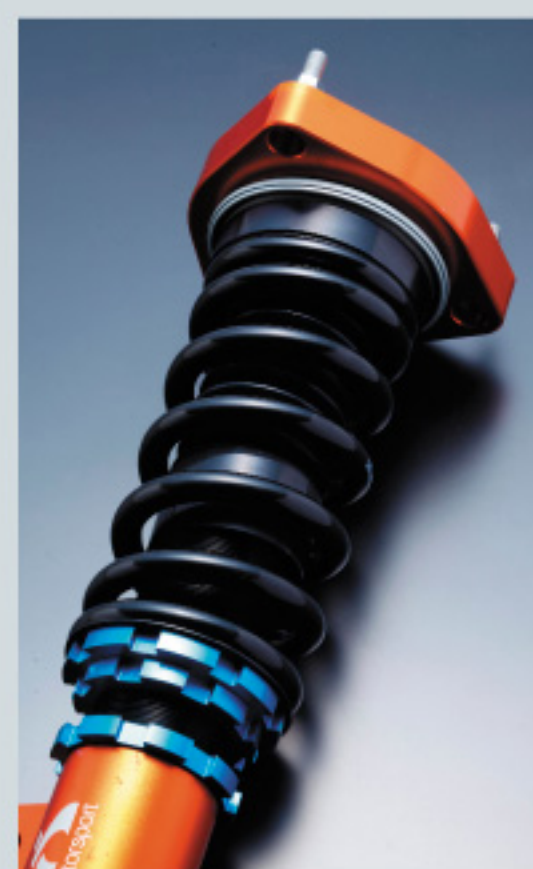

NEX suspension system GTP GREEN

キャンバー調整式ピロボール・
アッパーマウント採用。

NEX SS Blue coilover suspension utilize urethane isolated aluminum upper mounts (on select applications) to keep suspension noise to a minimum while maintaining the precision feel of a solid mounted strut.

NEX suspension system SS Blue

Spring

Oil tempered chromium-silicon steel spring is incorporated in NEO's coil over system for responsive and uncompromising handling characteristics. To keep the spring consistent the tilting force of a coil spring is carefully calculated and taken into consideration for each coil over Neo produce.

Lower Mount

Aluminum-Magnesium 6061 alloy construction allows for a strong and lightweight alternative to conventional steel lower mounts. On average, each suspension is around 4~12lb lighter than steel construction, that's a hefty 16~48lb reduced unsprung weight.

NEX suspension system GTP GREEN

Features:

- Steel shock shell construction
- Aluminum body construction
- Twin-Tube internal design
- 12 way damping adjustable (compression / bound)
- Heavy Duty Spherical Bearing
- Extra thick (10mm) camber plate (on strut type suspension)
- Large (25 mm) piston diameter for front and rear shocks
- Spring preload adjustable
- Fluorine coated adjustment tube
- Full-Length dust boots
- Fully rebuild-able

希望小売り価格 ¥188,000
